For the Gladstone Policy-A Manifesto by the Liberal Federation.

LONDON, August 8.-The National Liberal federation, the outgrowth of Mr. Chammatter of doubt.

The Democratic Sturday, selected their convention held Saturday, selected delegates to the Fourth District Democratic Congressional Convention to be held at Point Pleasant Angust 24, and instructed them to vote for Judge "Mun Jackson, secured the support of a vast majority of Gibson had been counting on securing the Ritchie county delegates. Hon. Bob Blair presided over the convention.

Mrs. William M. Welch, of Kayser, bas issued a manifesto, tsaying: Although the results during the results of the appeal to the country completely justify the course uation is encouraging. Mr. Gladstone has secured the support of a vast majority of the Liberals and Liberal organizations. As far as the Federation is concerned the results of the appeal to the country completely justify the course taken by its council. Greatly as we regret our losses, the manner in which the Liberals responded to Mr. Gladstone's appeal proves that the Federation represents the real opinion of the Liberal party. That party being committed to effecting a union between England and Iteland, will never abandon the object until the goal has been reached. No progress is possible in liberal work until that has been sattled, nor will the Conservatives be able to indulge in congenist inactivity. It is the imperative duty of the Liberals to obtain at the earliest possible moment an explicit statement of the Tory policy in regard to Ireland. The Gladstone policy still lives, and its ultimate triumph is assured.
